Request that interested parties be proficient at: EMR's, Patient Triage, Vitals, IM injections, IV start, EKG, experience with working with Healthcare Insurances, scheduling, Patient History, vaccinations, Performing Strep., Flu, Mono, U/A, Pregnancy tests. And management skills .

Job Type: Full-time

Experience:

Licensed Practical Nurse: 2 year (Preferred), EMR systems: 2 year (Preferred), Management skills: 2years (Preferred)

License: LPN license required

Work Location: One location

Supervisor: Physician

Clinical Duties: Performing EKGs, administering medications, Performing X-rays, sterilizing instruments, Performing injections etc.

**Management Duties:** As a practical nurse you will be involved in ensuring patient care plans are being followed. Many LPN's are involved in creating patient care plans and evaluating their effectiveness. Managing education for the patient and their family is always a good idea. LPN's must not only manage patient care but often coworkers as well. Many work as charge nurses or team leaders. Supervise nursing staff.

Schedule: Weekdays Monday to Thursday 8 to 5 and Friday 8 to 12
